

ENVIRONMENT POLICY

Catalyst Service Solutions Partners Pvt Ltd, (formerly known as Comprehensive Support Services Pvt Ltd) is unwavering in its commitment to meeting the needs of customers and consumers in an environmentally sound manner. We are dedicated to continuous improvement in environmental performance across all our activities. At all levels of management, in collaboration with our employees, we assume responsibility and will be held accountable for the company's environmental performance.

Catalyst Service Solutions Partners Pvt Ltd is dedicated to upholding the highest standards of environmental safety and ongoing enhancement of our environmental performance, through annual improvement objectives and targets, regularly reviewing them at both individual unit and corporate levels to ensure effective implementation.

Our commitment extends to engaging with stakeholders, including local communities, regulatory authorities, and environmental organizations. We actively seek to address concerns related to environmental impact through open communication and collaboration.

At Catalyst Service Solutions Partners Pvt Ltd, our employees are integral to our environmental initiatives. We actively involve our workforce in the implementation of environmental policies, providing appropriate training and fostering a culture of environmental responsibility.

Catalyst Service Solutions Partners Pvt Ltd is dedicated to sustainable resource management, particularly in the areas of energy efficiency and renewable energy. We strive to minimize our environmental footprint by exploring and implementing energy-efficient practices, incorporating renewable energy sources into our operations, and managing chemical usage responsibly to prevent harm to the environment.

In addition, we recognize the importance of biodiversity, land use, and the prevention of deforestation in our environmental stewardship across our services and work procedures. We commit to preserving and enhancing biodiversity in the regions where we operate, optimizing land use practices to minimize our impact, and actively participating in efforts to combat deforestation.

We also acknowledge the significance of water and air quality in environmental stewardship and regularly review progress to ensure compliance with standards.

Our commitment extends to the sustainable management of resources. We actively seek opportunities for waste reduction, energy conservation, and explore possibilities for reuse and recycling, aligning our practices with principles of sustainable resource management.

In embracing these commitments, Catalyst Service Solutions Partners Pvt Ltd aims to foster a culture of environmental responsibility, ensuring a positive impact on the communities we serve and contributing to a sustainable future.
